Globe-Wernicke

"Elastic" Bookcases

We ask your verdict on a sectional bookcase known as the "Elastic" kind made by **The Globe-Wernicke Co., Cincinnati.**

We believe that the kind of furniture for which there are repeated demands, year after year, establishes excellent proof of its uniform reliability.

Globe-Wernicke "Elastic" Bookcases have been on the market longer than any other sectional bookcase made.

We sell them at the same price as the factory—and in any finish listed in the catalogue.

Mechanical Features

Globe-Wernicke "Elastic" Bookcases are made in sections or units—a Top Unit, a Book Unit and a Base Unit.

All **Globe-Wernicke** Book Units are fitted with disappearing glass doors that are controlled by a patent equalizer that centers the action, so that the door rides absolutely free and easy.

All **Globe-Wernicke** Units are provided with metal interlocking strips which secure and maintain a perfect alignment.

All **Globe-Wernicke** Units are of SOLID and not knock-down construction, so that it is possible to remove a unit with books intact.

All Standard Patterns of **Globe-Wernicke "Elastic" Bookcases** are made in both full and three-quarter lengths—34 inches and 25½ inches outside respectively.

For Standard Size Law Books—ask for C 11 size book sections, U. S. Revised Statutes, require D 12 1-4-size. See Catalogue. Copy on request.

Waist Materials

These kinds are for Tailored Waists. They have body enough to hold the laundered collar, and in colors are fast and durable.

White Linen for waists at 29c, 45c and 60c; also the very wide real sheeting Linen, soft finish, sold by art stores as butchers' fine linen.

Imitation of Linen, called Glasco Linen, is same finish as real Linen. Price, 15c.

The latest in Colored Goods is our Cordova Mercerized Stripes, a new cloth this week, to sell at 25c per yard.

Plaza Cloth is our special waist cloth. This is full mercerized finish and very pretty. The price is 25c per yard.

Another cloth for tailored waists is our special Madras, used equally as much for gents' shirts. This cloth just now at 15c per yard.

Twenty-five cent Scotch Gingham for office waists or real smart colored waists are some of the best cloths. All new—not one old pattern being shown.

The largest line of New Suits, Coats and Children's Garments that was ever in our store at this time of the year is now in our Garment Department.

Materials for Waists

Our line of materials for ladies' waists are of a larger variety than usually seen in our store. We shall call your attention to a large variety here that are new and the kinds being shown and sold in ready to wear waists. Many of these cloths are very light weight for short-sleeve waists with plenty of fine lace.

Waist Materials

This line of materials is for thin waists, those with short or three-quarter sleeve. Those made with fine laces or silk applique and embroidered bands.

These cloths are thin Silks, Muslins, Voiles, Marquises and Flaxons.

Figured Silks in small figures, also plain Silk as good as Suesine Silk for 29c per yard.

We are putting out a lot of Figured Silks in new designs at 39c per yard, 50c values.

Tan and new blue in Satin Striped Voile. This is a good 65c value, at the popular price of 50c per yard.

We have all colors in an all-wool Nuns Veiling for 50c per yard. These with fine laces make pretty waists.

Fine Allover Swiss Embroideries are to be some of our best. These we can match to Edges and Embroidered Bands. Allovers from 50c up to \$5.00 per yard, and a good fine one at 75c and \$1.00 per yard.

Silks, Allover and Edges are very cheap this season. Low prices on raw silk last season makes the goods cheaper this season.

Waist Materials

Heavier Silks for waists and dresses. The kinds that we are to speak of here are most of them confined to us. Unlike those in other stores. They may not be as good, or they may be better; that we leave to you to say.

Roughwear Silk, as advertised in all magazines, all colors, yard-wide, for 65c, compares with 87c Silk. Notice the price, 65c, and the width—yard-wide.

St. Regis Yard-wide Silk in all best colors. This we claim is as good as you are likely to find in 27-inch at this price; and doesn't a yard-wide Silk cut better than a narrower Silk, and would it not be good business to get that extra width when the price is the same? Compare the goods.

For \$1.00 we can sell you a C. E. Hovey Messaline in colors; for \$1.35 a B. & A. Messaline. Both are yard-wide. We make less profit on the better one; at the same time recommend it. We always consider the customer before we do our profits.

JOHN B. LENNON,
TREASURER, A. F. OF L.

[Communicated.]

Speaking not long ago to a large audience of workmen in Des Moines, Iowa, Mr. Lennon said: "Wage workers have been the mainstay of the liquor traffic on the American continent, but, thank God, they are going to knock it out. The saloon does not produce a thing which is a benefit to the human race. It is a non-producer and must be supported by those who work. Every man and woman should be against the liquor traffic from start to finish. I am speaking to wage workers, but it may be applied to everybody."

The working man is the first of all, perhaps, the most interested in his wages or means of income. What is the influence of the saloon upon wages? That is for you to answer. Suppose twelve printers, and I know the printers will not take offense at this reference, get \$21 a week. Six of these take the money home Saturday and spend it for food, clothing, books and other things that are essential to the right kind of living. The other six stop at the saloon on their way homeward. They spend, say, 30 cents, the same amount they spend every working day at a saloon. This is a net lowering of their wages of \$3 every week."

No one will doubt that Mr. Lennon has at heart the real interests of the working man and his family. His testimony will mean something to the workmen of Barre City. We feel very confident from the above statement that Mr. Lennon would vote "NO."

Respectfully,
No-license Press Committee.
